

# STEEL BLACK DISC BASE BAR

**COLLECTION:** Table Bases

**CFD17-BH**

The Steel Black Disc Base (Bar) offers a clean, contemporary foundation designed for stability and everyday performance in hospitality settings. A streamlined cylindrical column rises from a wide, low-profile disc base, creating a balanced footprint that helps reduce wobble while maximizing leg room around the table. The simple silhouette keeps sightlines open and pairs easily with a range of tabletop styles.

A heavy-duty top mounting plate provides multiple attachment points for secure fastening and dependable support at bar height. Built from durable steel with a black finish, this base is well-suited for high-traffic bar and dining environments where strength, stability, and a minimal aesthetic are essential.
