

STEEL BLACK DISC BASE BAR

COLLECTION: Table Bases

CFD30-BH

The Steel Black Disc Base (Bar) is built around a broad, heavy disc base that enhances stability for bar-height tables. The larger footprint helps keep the table steady and minimizes rocking, even in high-use hospitality environments. A simple cylindrical column rises from the low-profile disc, maintaining a clean, modern look while allowing comfortable leg clearance and easy circulation around the table.

Made from durable steel, this base is designed for daily commercial wear. A sturdy mounting plate with multiple attachment points ensures the tabletop fastens securely, creating a dependable, long-lasting foundation for bars, cafés, and communal standing-height applications.

KEY FEATURES:

- ♦ **Heavy-duty steel construction**
Built for lasting performance in high-traffic environments
- ♦ **Wide 30" disc base**
Provides excellent stability and balance
- ♦ **Reinforced 3" post**
Ensures superior structural support
- ♦ **Durable black powder-coated finish**
Ensures superior structural support
- ♦ **Commercial-grade design**
Ideal for restaurants, bars, and cafés

MATERIAL: Steel

FINISH: Black
