

KAMDYN ARMCHAIR

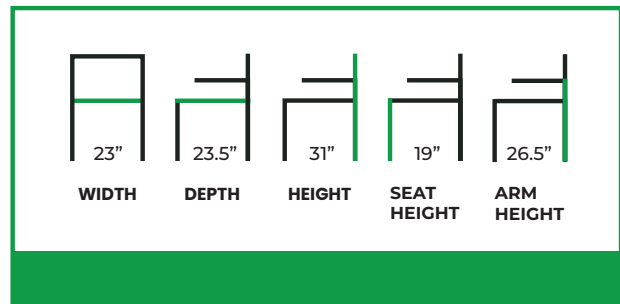

COLLECTION: Euro

EU-053AC

The Kamdyn Armchair is defined by its clean architectural frame and structured, rectilinear silhouette. A solid wood perimeter forms the arms and legs in a continuous composition, establishing a strong linear outline that emphasizes precision and proportion. The upholstered seat and back are inset within the frame, creating a refined contrast between structural clarity and tailored comfort. Crisp edges and disciplined lines reinforce the chair's composed geometry, giving it a confident, contemporary presence.

Designed for supportive, upright seating, the padded backrest and generously proportioned seat provide comfort without compromising its streamlined profile. Subtle horizontal stretchers strengthen the base while adding visual rhythm to the overall form.
