

# KAMDYN BARSTOOL

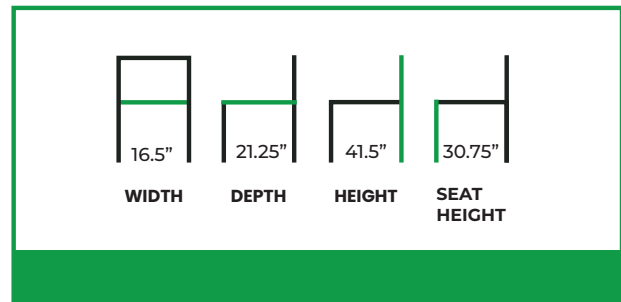

**COLLECTION:** Euro

**EU-058BS**

The Kamdyn Barstool carries forward the collection's architectural clarity in a taller, more vertical composition. A solid wood frame defines the perimeter, with clean, rectilinear arms and legs forming a structured outline that emphasizes precision and proportion. The upholstered seat and back are inset within the frame, creating a refined contrast between the linear wood construction and the tailored softness of the cushioning. Crisp edges and disciplined geometry give the barstool a confident, modern presence.

Elevated to bar height, the design incorporates integrated footrests that reinforce the base while providing practical support and visual balance. The padded backrest and generously proportioned seat maintain upright comfort suited to extended dining or social settings.
