

AROMAS BARSTOOL

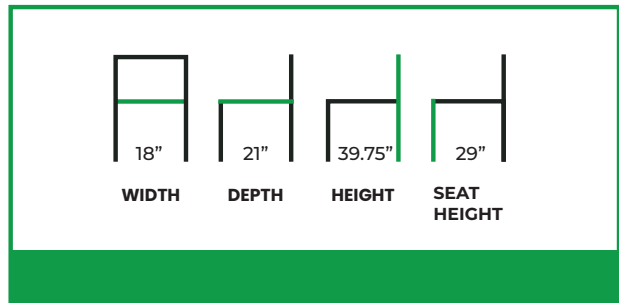

COLLECTION: Euro

EU-1258BS

The Aromas Barstool translates the collection's clean, architectural language into a refined bar-height design. Its straight-lined frame and gently angled backrest create a composed, rectilinear silhouette that feels grounded yet visually light. An open structure and carefully balanced proportions give the stool a sense of clarity and restraint, allowing it to integrate seamlessly into a variety of interior settings.

Designed for comfortable, upright seating, the supportive backrest and contoured seat provide ease for extended use at counters and bars. A streamlined metal footrest adds durability and functional support without interrupting the minimalist profile, making the Aromas Barstool a versatile choice for dining counters and hospitality environments that value simplicity, structure, and everyday performance.
