

ALESSI BARSTOOL

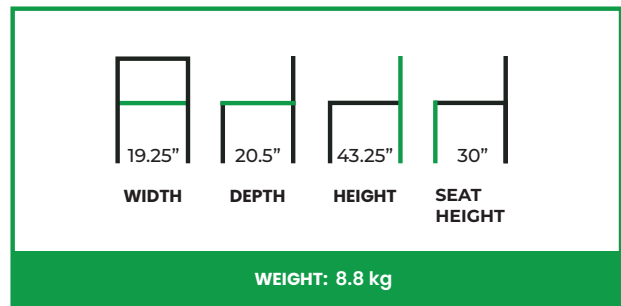

COLLECTION: Euro

EU-949BS

The Alessi Barstool translates the collection's futuristic design language into a refined bar-height silhouette. A softly contoured backrest and seat form a cohesive, sculptural shell that supports the sitter while maintaining a light, elevated presence. The curved back provides comfortable upper-back support, encouraging a relaxed yet upright posture suited to counter and bar-height seating.

Slender, well-proportioned legs give the stool a poised stance, while an integrated footrest enhances comfort and usability without disrupting the clean profile. Balancing innovation with approachability, the Alessi Barstool offers a modern seating solution for dining counters and hospitality environments that value thoughtful design, comfort, and architectural clarity.

KEY FEATURES:
