

EXPRESS BARSTOOL

COLLECTION: Signature

SC-078BS

The Express Barstool pairs a streamlined seat-and-back assembly with a sturdy, sculpted frame built for bar-height stability. A low, horizontal backrest provides supportive contact at the mid-back while keeping the profile open for easy movement and quick sit-downs. The seat is cushioned and set into a defined frame, creating a secure sitting surface with a clean edge that supports comfortable, upright posture.

Structurally, the stool stands on four tapered legs with a slightly widened stance to improve balance at height. A fixed stretcher system ties the legs together, functioning as both a footrest and a reinforcing brace that reduces wobble and resists racking over time. The result is a compact, durable barstool suited to high-traffic dining and hospitality settings.

WEIGHT: 10 kg

KEY FEATURES:
