

AXIS ARMCHAIR

COLLECTION: Fusion

FN-200AC

The Axis Armchair is thoughtfully designed to balance visual lightness with everyday comfort through its refined, architectural form. The gently curved backrest is shaped to provide supportive contact along the mid-back, promoting a natural sitting posture while maintaining a sleek, unobtrusive profile. Its smooth, continuous shell creates a sense of cohesion, allowing the chair to feel both supportive and visually streamlined.

The seat is subtly contoured to enhance comfort during extended use, while the integrated arm structure offers a natural resting position without adding visual weight. This seamless transition between seat, back, and arms reinforces the chair's fluid silhouette and ergonomic intent.
