

WORLEY SIDE CHAIR SLOPE BACK

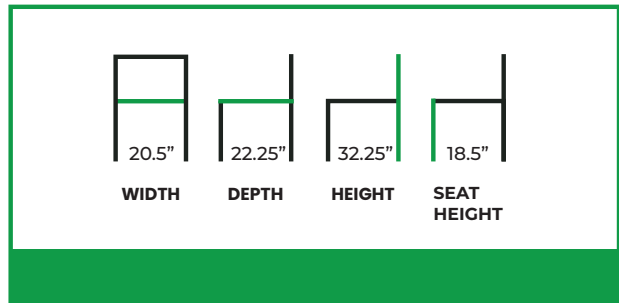

COLLECTION: Fusion

FN-3802SC

The Worley Side Chair refines modern elegance through its distinctive sloped back design, creating a dynamic silhouette that feels both sculptural and supportive. The high backrest angles gently backward, forming a smooth, continuous line as it flows into the seat—an intentional detail that enhances ergonomic comfort while giving the chair a strong visual identity. Clean stitching and crisp edges reinforce its tailored appearance, emphasizing precision and structure.

Supported by angled legs, the chair maintains a poised, architectural stance while remaining light in profile. The sloping back not only adds visual movement but also encourages a relaxed, natural seating posture. Ideal for contemporary dining spaces, executive lounges, or refined hospitality environments, the Worley Side Chair delivers a thoughtful balance of form, comfort, and modern sophistication.
