

TERRACE BARSTOOL

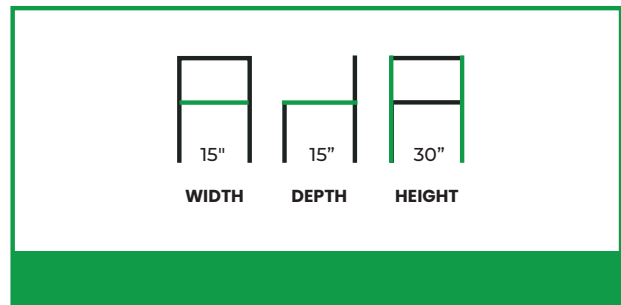

COLLECTION: Fusion

FN-53BS

The Terrace Barstool is a refined interpretation of classic café design, celebrating the beauty of bentwood craftsmanship through a durable, modern lens. Its gracefully arched legs and curved supports are formed from wood-look aluminum, creating a light, sculptural presence while offering the strength required for high-traffic environments. The open framework allows the form to be appreciated from every angle, adding visual interest without overwhelming the space.

A plush, rounded seat provides inviting comfort, making it well suited for extended seating, while the circular footrest reinforces both stability and ergonomic support. Balanced in proportion and rich in character, the Terrace Barstool is an ideal choice for bistros, cocktail bars, and hospitality interiors that seek timeless charm paired with long-lasting performance.
