

ARGON SIDE CHAIR

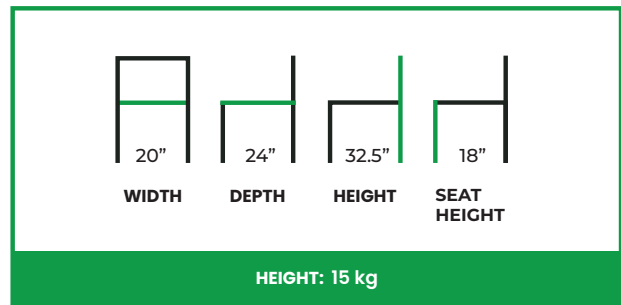

COLLECTION: Signature

SC-023SC

The Argon Side Chair balances a compact footprint with a supportive, wraparound upper structure designed for comfortable, active seating. Its curved backrest flows into short, integrated arm returns that provide subtle lateral support and a natural place to rest the forearms without restricting movement. The padded seat is proportioned for easy entry and encourages an upright, stable posture at the table.

Structurally, the chair is built around a four-leg frame with angled rear supports that connect directly into the back-and-arm assembly, helping transfer load and reinforce the silhouette. The open connection between seat and back reduces visual bulk while maintaining rigidity through the side supports. With its straightforward geometry and reinforced back-to-leg structure, the Argon works well in dining and hospitality settings where chairs are frequently moved and durability matters.

KEY FEATURES:

- ◇ **Commercial-Grade Construction**
Built for durability and daily use in high-traffic hospitality environments
- ◇ **Contract-Grade Foam**
Premium cushioning engineered for long-lasting comfort and shape retention.
- ◇ **Solid Wood Frame**

FRAME: Solid Wood

FINISH OPTIONS: SC WOOD STAINS

UPHOLSTERY OPTIONS: FABRIC + VINYL

MINIMUM ORDER QUANTITY:

- ◇ Standard: 4 units

COM REQUIREMENTS: 1.5 yards
