

EXPRESS SIDE CHAIR

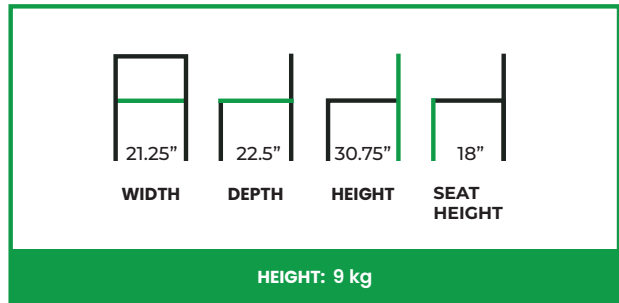

COLLECTION: Signature

SC-078SC

The Express Side Chair combines a compact upholstered seat-and-back with a sculpted frame that emphasizes stability and clean geometry. The backrest is set into a shaped support rail, creating a firm, continuous contact point for the upper back while keeping the profile open and easy to move around. The seat is lightly contoured and cushioned to encourage upright dining posture and comfortable, everyday use.

Structurally, the chair is built on four tapered legs with a slightly widened stance for balance. A rigid under-seat frame supports the cushion and helps distribute load evenly to the legs, reducing flex at the corners. The back support integrates directly into the rear posts, strengthening the chair when leaning back and improving long-term resistance to wobble—well-suited for dining and hospitality settings where chairs are frequently shifted and re-positioned.
