

GENEVA SIDE CHAIR

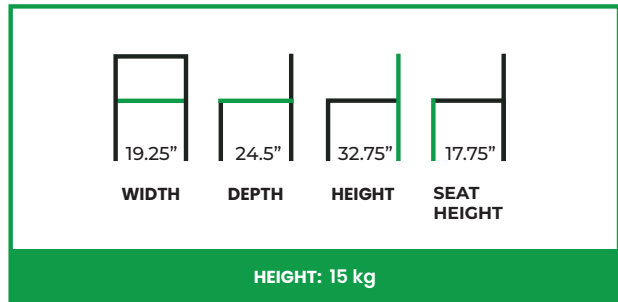

COLLECTION: Signature

SC-098SC

The Geneva Side Chair blends a softly contoured upholstered shell with a clean, reinforced base designed for stable everyday seating. The backrest rises in a gentle curve to support the upper back and guide posture, while the seat is slightly cupped to help center the sitter and distribute weight evenly. Its armless profile keeps entry easy and allows the chair to slide neatly under dining tables.

Structurally, the chair sits on four tapered legs connected by a rigid perimeter seat frame that cradles the upholstered shell. This continuous frame helps spread load across the corners and reduces flex over time, while the subtly splayed leg stance improves balance without adding bulk. With its compact footprint and supportive shell, the Geneva is well-suited for dining, lounge, and hospitality settings where comfort and durability are equally important.
