

FLORIN SIDE CHAIR

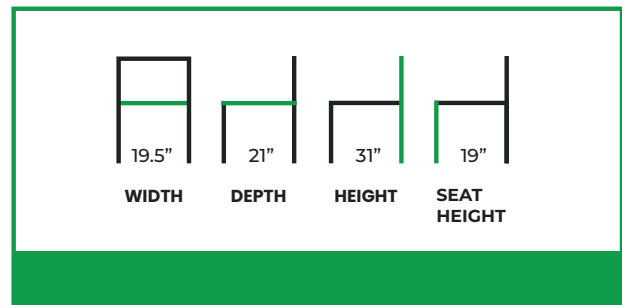

COLLECTION: Signature

SC-138SC

The Florin Side Chair is a compact, pared-back design that focuses on straightforward support and easy, everyday function. A thick, rectangular seat pad creates a stable sitting surface, while the separate bolster-style backrest provides targeted lumbar-to-mid-back support without enclosing the sitter—comfortable for quick dining use and flexible seating arrangements. Its open sides and low-profile back keep movement unobstructed and allow the chair to tuck neatly under a table.

Structurally, the chair is built around a simple four-leg frame with broad, straight posts that read like continuous planes from floor to seat. The backrest is carried by two rear uprights that extend above the seat, creating a rigid spine that stabilizes the back when the sitter leans. With its minimal joinery points and block-like geometry, the Florin offers a durable, space-efficient option for dining and hospitality settings.
