

SILVANA SIDE CHAIR

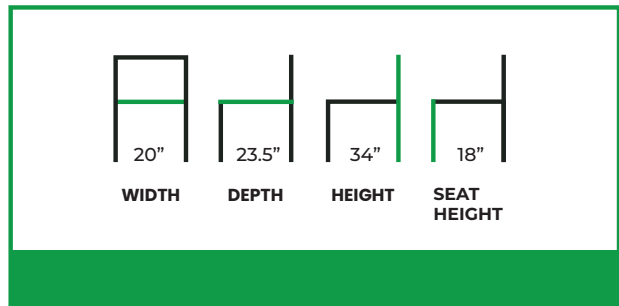

COLLECTION: Signature

SC-307SC

The Silvana Side Chair combines a streamlined upholstered seat with a framed back designed for upright, dependable support. A padded back panel is suspended within the rear posts, providing comfortable upper-back contact while keeping the silhouette open and easy to approach from the sides. The seat is thick and squared, offering a stable sitting platform that suits longer dining without feeling oversized.

Structurally, the chair is built on four straight legs connected by side and rear stretchers that stiffen the frame and help resist racking over time. The back posts extend down into the seat frame, creating a strong load path when the sitter leans back. With its compact footprint and reinforced base, the Silvana is well-suited for high-traffic dining and hospitality environments where chairs are moved frequently and need to stay solid.
