

ARCHER SIDE CHAIR

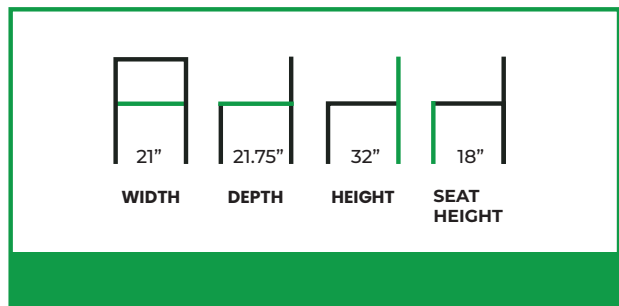

COLLECTION: Signature

SC-352SC

The Archer Side Chair is defined by a clean, gently tapered seat shell set into a sculpted base that keeps the profile light while maintaining strong support. Its upholstered backrest rises in a subtle curve to support the upper back and encourage upright posture, while the padded seat provides a stable, comfortable perch without adding bulk or visual weight.

Structurally, the chair uses a four-leg frame with softly angled legs that widen the stance for stability. The seat is cradled by a continuous perimeter frame, which acts like a rigid "ring" to distribute load evenly and reduce flex at the corners. With its armless design and compact footprint, the Archer tucks neatly under dining tables and performs well in hospitality spaces where durability and ease of movement are key.

KEY FEATURES:

- ◇ **Commercial-Grade Construction**
Built for durability and daily use in high-traffic hospitality environments
- ◇ **Contract-Grade Foam**
Premium cushioning engineered for long-lasting comfort and shape retention.
- ◇ **Solid Wood Frame**

FRAME: Solid Wood
