

ELWOOD BARSTOOL

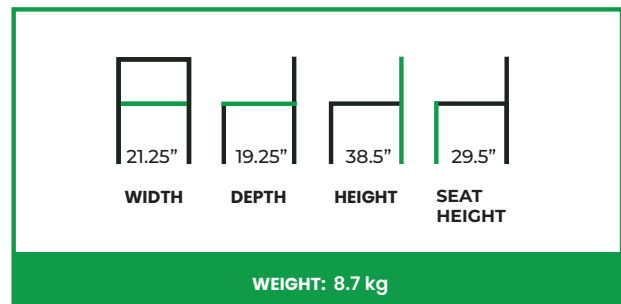

COLLECTION: Signature

SC-448BS

The Elwood Barstool softens a clean bar-height form with a compact, supportive seat shell designed for everyday comfort. Its curved backrest wraps slightly around the sitter, offering gentle upper-back and side support while allowing easy movement and quick entry. The seat is generously padded with a subtly rounded front edge to reduce pressure at the legs during longer sits.

Structurally, the stool uses four tapered legs set with a slight splay for stability and a lighter visual footprint. A continuous stretcher ring reinforces the base, acting as a multi-directional footrest while bracing the legs to minimize sway and racking over time. With its balanced proportions and braced frame, the Elwood is well-suited for hospitality counters, communal bar-height tables, and residential kitchen seating where comfort and durability both matter.

KEY FEATURES:
