

# APOLLO SIDE CHAIR

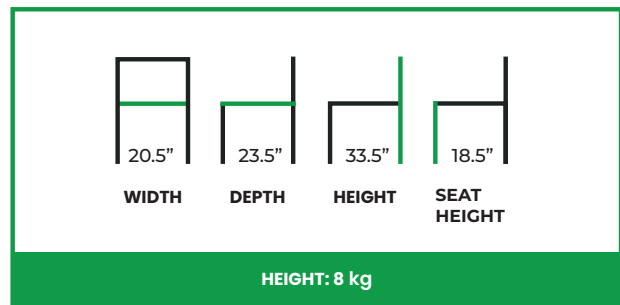

**COLLECTION:** Signature

**SC-604SC**

The Apollo Side Chair combines a tailored, upholstered shell with a compact, supportive stance designed for everyday dining comfort. Its gently reclined backrest is shaped to follow the spine, while the tufted construction helps maintain structure and evenly distribute pressure across the back. The seat is slightly pitched and padded to support a natural sitting posture without feeling bulky.

Structurally, the chair sits on four tapered legs set at a modest splay for stability. The seat-and-back shell is anchored to a rigid underframe, allowing the cushioned form to feel secure and supported rather than soft or shifting. With its armless profile and clean footprint, the Apollo slides easily around tables and works well in hospitality settings where comfort, durability, and efficient spacing matter.
