

QUILL SIDE CHAIR

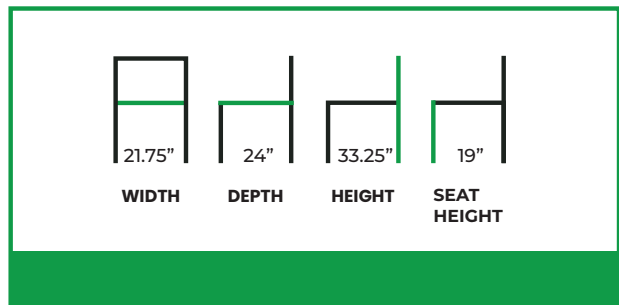

COLLECTION: Signature

SC-643SC

The Quill Side Chair is shaped with a supportive wraparound back that transitions into subtle arm-like returns, giving the sitter gentle lateral support without the bulk of a full armchair. The backrest is slightly reclined and contoured to follow the upper back, while the seat is thickly cushioned and squared off for a stable, comfortable perch that works well for longer dining.

Structurally, the chair is built on a four-leg base with tapered legs set at a modest splay for stability. The back-and-side returns connect into the seat frame to form a rigid shell, helping the chair resist twisting when it's pulled, rotated, or leaned into. With its compact footprint and reinforced shell-to-leg construction, the Quill suits dining and hospitality settings where comfort and durability need to work together.

KEY FEATURES:
