

AVELINE BARSTOOL

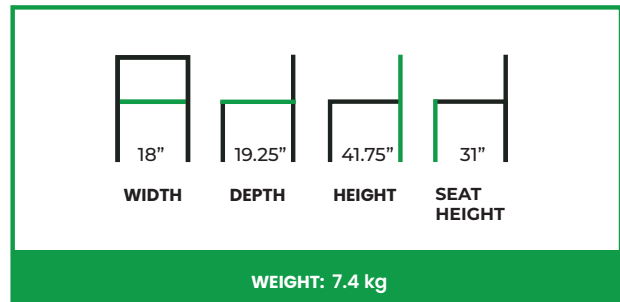

COLLECTION: Signature

SC-989BS

The Aveline Barstool balances a soft, supportive seat with a clean, architected base designed for stability at counter height. A gently curved, open-back rest supports the upper back while allowing easy reach and movement around the stool—ideal for quick sit-downs and frequent turning. The seat is generously cushioned and shaped to distribute weight evenly for longer, more comfortable use.

Its structure is defined by four slender, slightly splayed legs that create a stable footprint without visual heaviness. The integrated footrest functions as both a comfort feature and a stabilizing brace, tying the legs together to reduce wobble and resist racking over time. With a compact profile and reinforced under-seat frame, the Aveline is well-suited for bar and café environments where durability, posture support, and ease of entry matter.
