

GRANGER SIDE CHAIR

COLLECTION: Envision

ENV-511SC

The Granger Side Chair seamlessly blends minimalist aesthetics with mid-century modern sensibilities, making it a versatile seating option for contemporary dining spaces or home offices. The chair features a sleek silhouette balanced by soft, rounded geometries, giving it an inherently clean and modern look. Its design relies on a continuous, tubular metal sled-base frame where the metal bends fluidly along the floor to connect the front and rear supports, maximizing stability while maintaining a lightweight visual footprint.

The Granger emphasizes comfort through organic, contoured shapes that harmonize beautifully with its thin-profile metalwork.
