

ALCOTT SIDE CHAIR

COLLECTION: Envision

ENV-529SC

The Alcott Side Chair brings together bold geometry and effortless simplicity in a design that feels both artistic and functional. Its sculpted plywood seat and curved backrest create a fluid silhouette that supports the body with understated comfort. A striking combination of slender front legs and dramatic angular rear supports gives the chair its signature architectural presence, turning everyday seating into a design statement.

Thoughtfully balanced proportions and smooth contours add softness to its modern form, while the durable construction ensures lasting performance in busy hospitality, dining, and workspace environments. Elegant yet approachable, the Alcott Side Chair is designed to elevate interiors with a refined contemporary character.
