

ELTON BARSTOOL

COLLECTION: Envision

ENV-607BS

The Elton Barstool brings together soft tailoring and minimalist structure in a design that feels both elevated and inviting. Its generously upholstered seat and wraparound backrest create a lounge-inspired comfort, while the slim metal frame introduces a clean architectural silhouette that feels light, modern, and refined.

Balancing sculptural form with everyday functionality, the Elton Barstool is well suited for upscale hospitality spaces, contemporary dining environments, boutique cafés, and sophisticated bar settings. The contrast between the plush upholstery and streamlined steel frame gives the piece a warm contemporary character with a polished residential influence.
