

BECK SIDE CHAIR

COLLECTION: Envision

ENV-670SC

The Beck Side Chair masterfully balances organic warmth with sleek modern lines. It features a beautifully contoured, rich walnut-finished wooden frame that seamlessly highlights a dual-panel woven cane backrest. The natural texture of the rattan allows light to filter through, creating an airy, light footprint in any room.

For comfort, the gently curved seat is upholstered in premium, supple black leather, providing a sophisticated contrast to the earthy wood tones. The entire upper structure rests elegantly on a minimalist, matte black powder-coated steel frame with slender legs, giving the chair an elevated, contemporary edge. It's an ideal choice for high-end dining spaces, minimalist workspaces, or as a distinctive accent piece.
