

REMUS SIDE CHAIR

COLLECTION: Envision

ENV-711SC

The Remus Side Chair blends clean lines with sculptural simplicity, creating a modern silhouette that feels both refined and approachable. A gently curved plywood seat and backrest bring subtle ergonomic comfort, while the exposed metal supports add contrast and architectural detail. Tapered solid wood legs ground the design with warmth and durability, making the chair a versatile addition to dining spaces, cafés, hospitality interiors, and contemporary commercial settings.

Minimal yet full of character, the Remus Side Chair delivers timeless style with a modern industrial edge.
