

VALIR SIDE CHAIR

COLLECTION: Envision

ENV-935SC

The Valir Side Chair transforms industrial simplicity into a bold design statement with its fully metal construction and sculptural silhouette. Defined by clean lines, softened edges, and a refined ladder-back detail, the chair balances strength with understated elegance. Its slim profile and gently curved frame create a light, streamlined look, while the contoured metal seat adds comfort and functionality for everyday use.

Built for durability without sacrificing style, the Valir Side Chair is well suited for dining spaces, cafés, patios, restaurants, and hospitality interiors seeking versatile seating with modern industrial appeal. The minimalist design allows it to blend effortlessly into both contemporary and classic environments, bringing timeless character and architectural simplicity to any setting.
