

ROMEO ARMCHAIR

COLLECTION: Fusion

FN-7290AC

The Romeo Armchair pairs tailored structure with sophisticated flair. Built on a sleek metal frame artfully finished to mimic the warm, organic grain of real wood, Romeo delivers high-traffic durability with timeless aesthetic charm. Its gently tapered legs and slender, flat-topped armrests form a clean, architectural silhouette that grounds the piece with effortless poise.

At the heart of Romeo's design is a striking balance of texture and detail. A smooth, cushioned seat offers inviting ergonomic support, beautifully contrasted by a tall backrest adorned with intricate diamond geometric stitching. Flowing seamlessly onto the reverse side, this subtle pattern ensures the chair looks exceptional from every angle in any modern commercial or hospitality setting.
