

MARCEL ARMCHAIR

COLLECTION: Signature

SC-903AC

The Marcel Armchair brings a vibrant, architectural energy into the room, expertly striking a balance between structured geometry and casual comfort. Its frame is shaped from solid wood, defined by continuous, fluid lines where the armrests extend outward in a smooth, confident arc from the back posts. Rather than hiding its structural bones, the Marcel Armchair turns them into a visual feature: the soft, enveloping curve of the backrest wraps around to form a supportive, organic cradle, perfectly mirroring the plush, contoured seat anchored just below.

Adding an inventive twist to its sleek profile, the front legs are anchored by polished metallic casters. This subtle detail introduces an element of effortless mobility and a quiet nod to industrial charm, allowing the Marcel Armchair to shift seamlessly between a focused desk companion and an inviting lounge piece.
